# Electronic Management Tool/Night Eyes Presentation

Presentation to: PI Conference Atte

Briefer: Maj Greg Pate  
23 Aug 00

# PURPOSE OF BRIEFING

- Provide DCM NG Melbourne's concepts for electronic management and integrated insight into the Joint STARS program
- Demonstrate DCM NG Melbourne's Electronic Management Tool (EMT)

# Concept

- Establish tailored EMT sites
- Establish integrated information site
- Keep It Simple!

# EMT Concept

- Establish tailored EMT sites
  - Useful tool for oversight and insight of program
  - Designed so that shared info is by-product
  - Unique to organizations needs
    - Program Impact Identification (All sites)

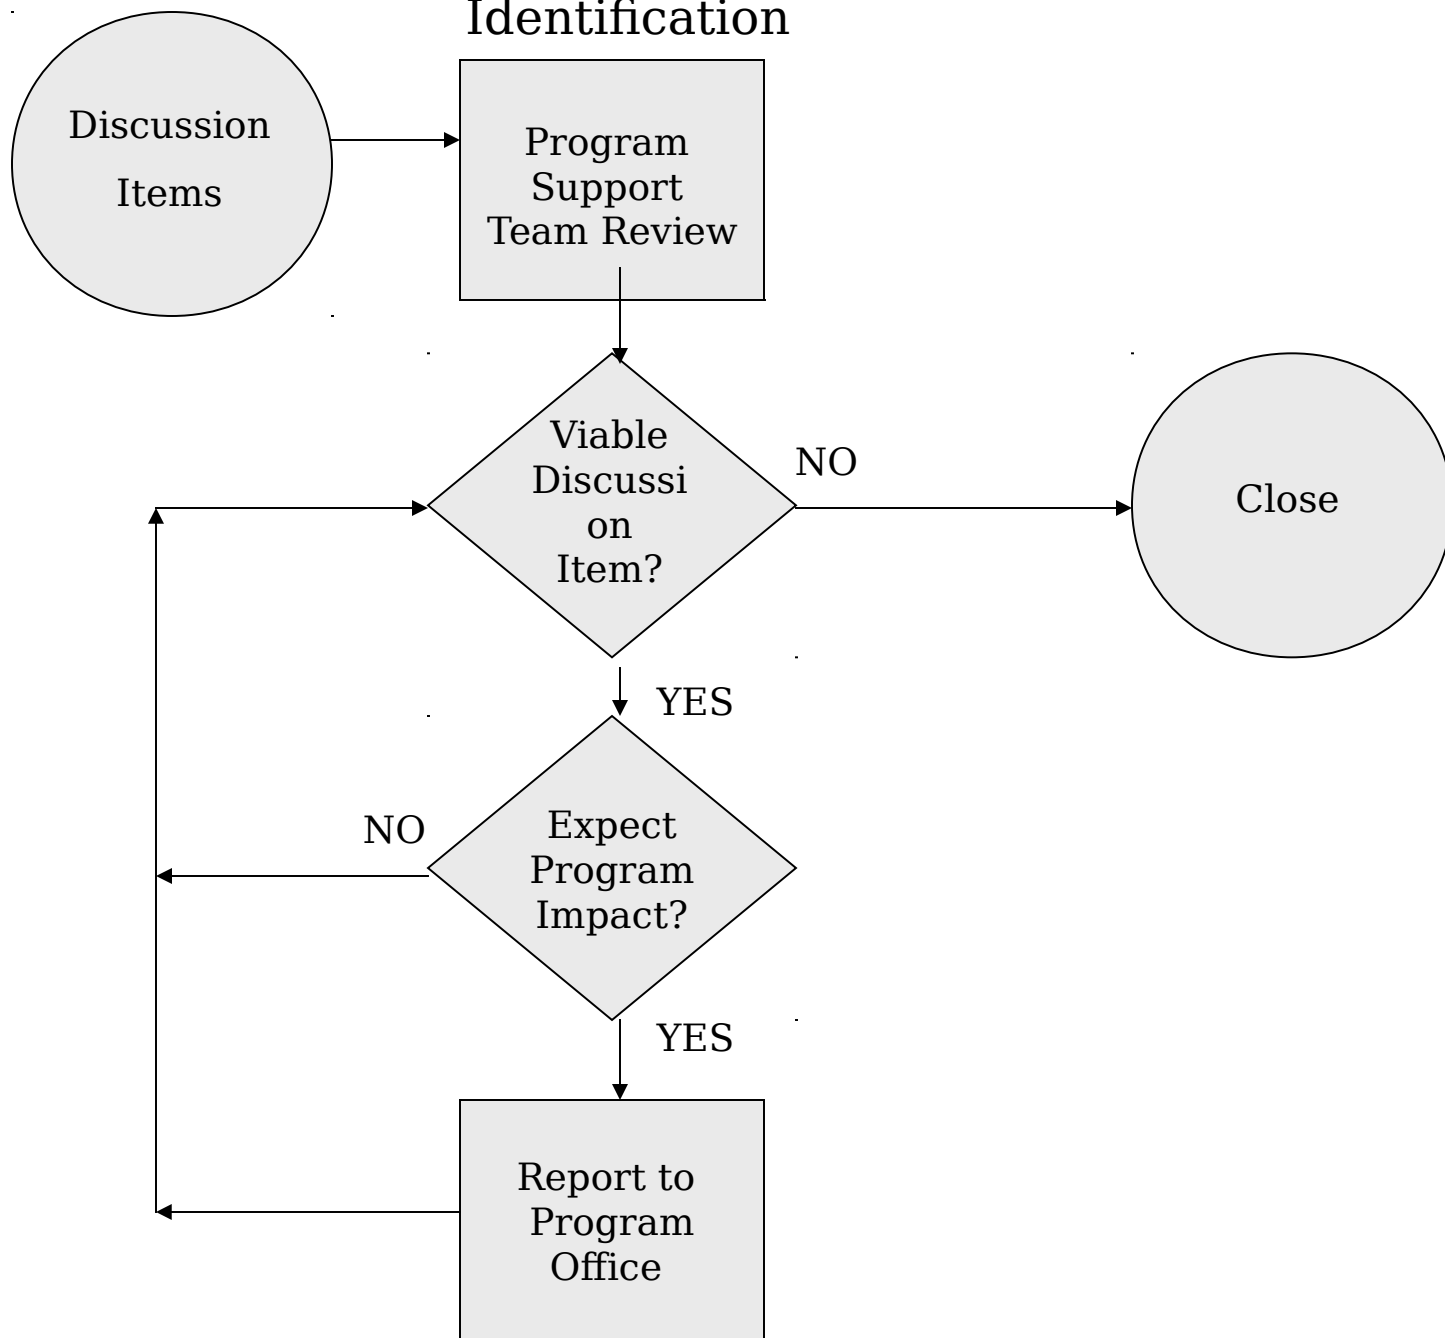

# Program Impact Identification

## ■ Discussion Items

- Identify program concerns
- All levels of organization responsible
  - Bottom-up approach preferred (First to know)
    - Utilize knowledge and expertise

# Program Impact Identification

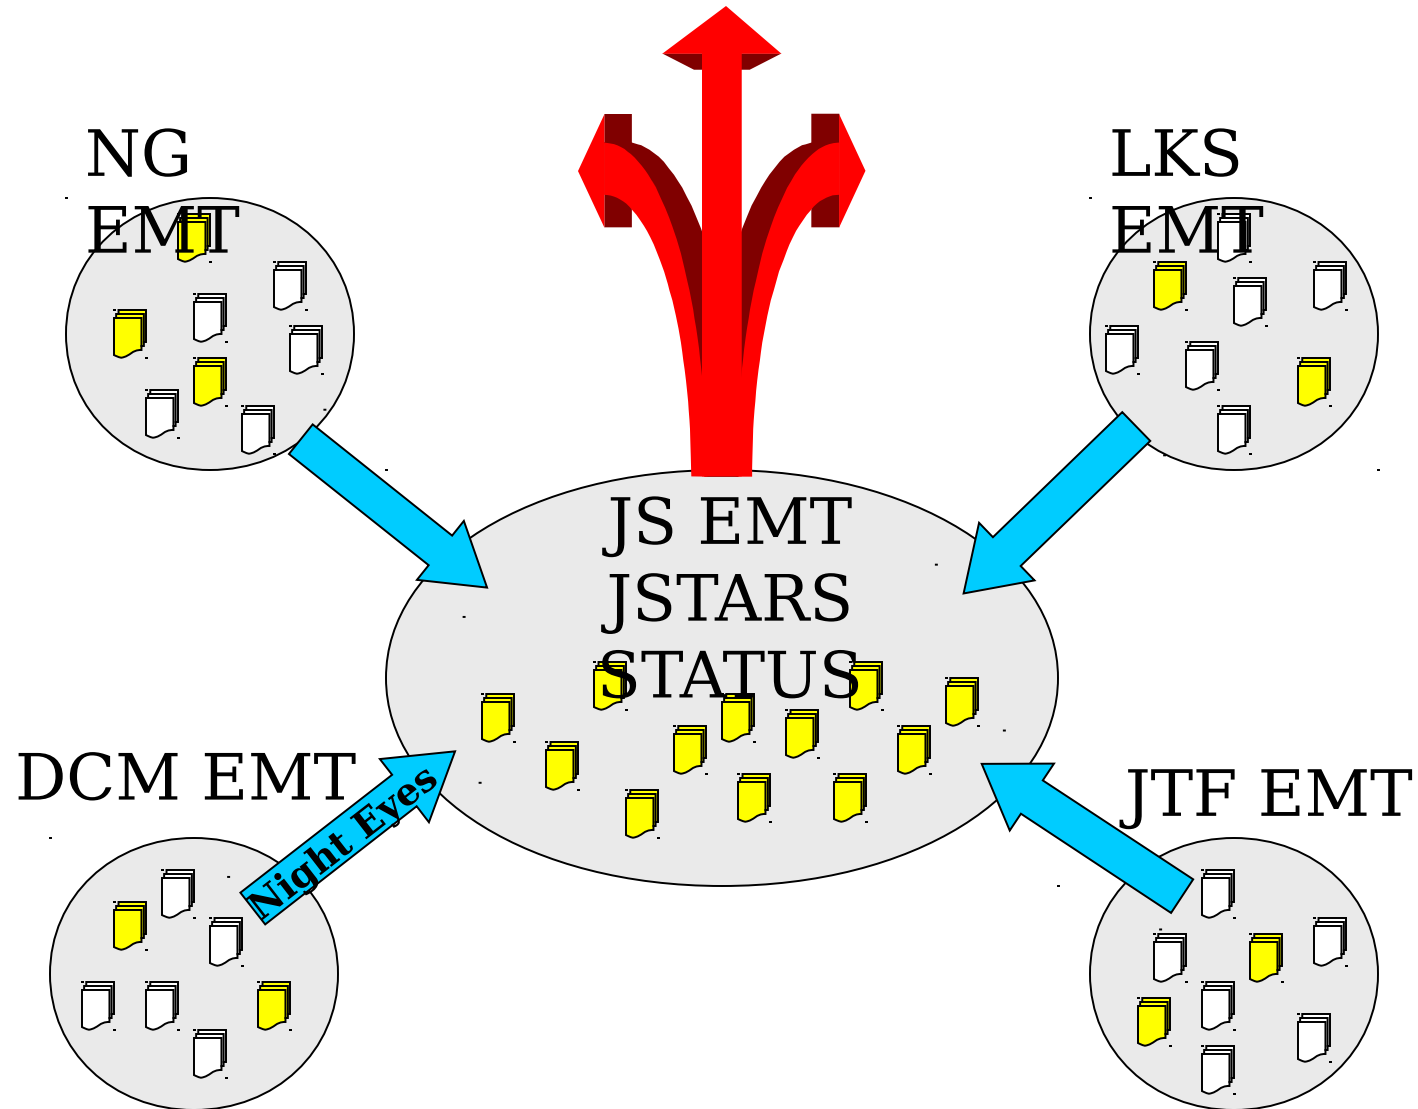

# Integrated Information Concept

- Establish integrated information site
  - Agree on sources of information
    - Trust and accountability
  - Integrate info into established site

# Integrated Program Information Site

# Challenges

- Resistance to change
- Redundancy (overlap of work)
- Information saturation
- Proper identification of problems

# Challenges

- Resistance to change
  - Change culture
    - Top management focus
- Redundancy (overlap of work)
  - Define roles and responsibilities
  - Establish seamless integration of functions
  - Foster accountability and trust

# Challenges

- Information saturation
  - Populate site with select information
    - Rational for use and flow of information
  - Integrate activities
- Proper identification of problems
  - Improper flow of information
    - Allow screening and handling at appropriate levels

# Summary

- Develop and populate local EMTs
- Establish integrated information site
- Challenges
